

XM Radio provides the best possible outlet for my needs. As Vice President of Sales for a major corporation in the Northeast, I travel a tremendous amount. I could not operate without my XM Radio. Besides the entertainment advantages of keeping the same station on as I travel, I have found the instant traffic and weather an major added bonus!!

Just to have the ability to check either Boston or New York's traffic and weather in an instant is wonderful. I must also admit that when travelling to areas that I don't drive to, I ALWAYS rent an XM ready vehicle from Avis.

XM is the perfect example of America's right to free enterprise!!
